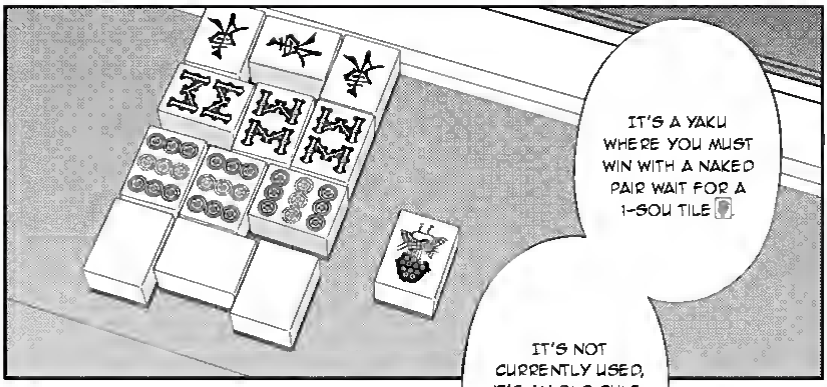
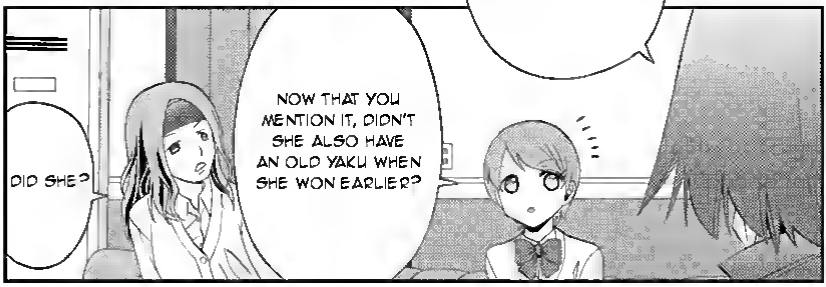
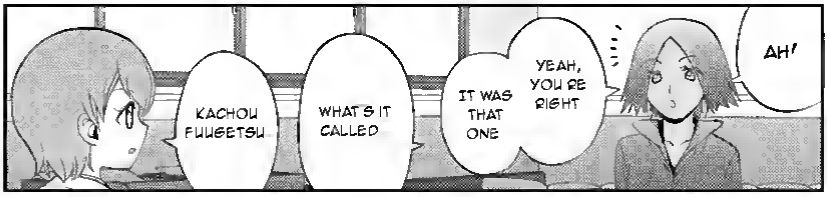
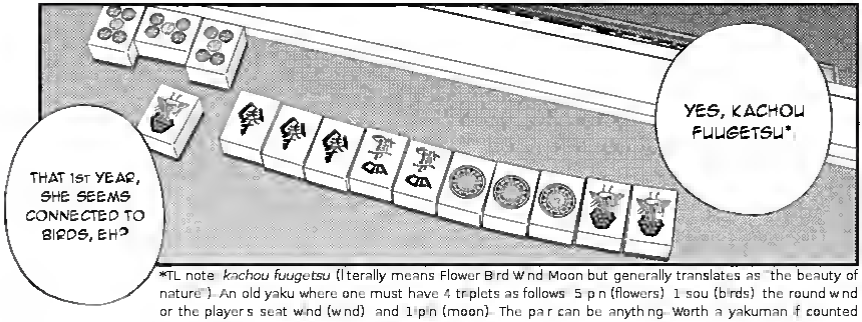
*TL note: *kinkei dokuritsu* (the stand alone golden rooster)

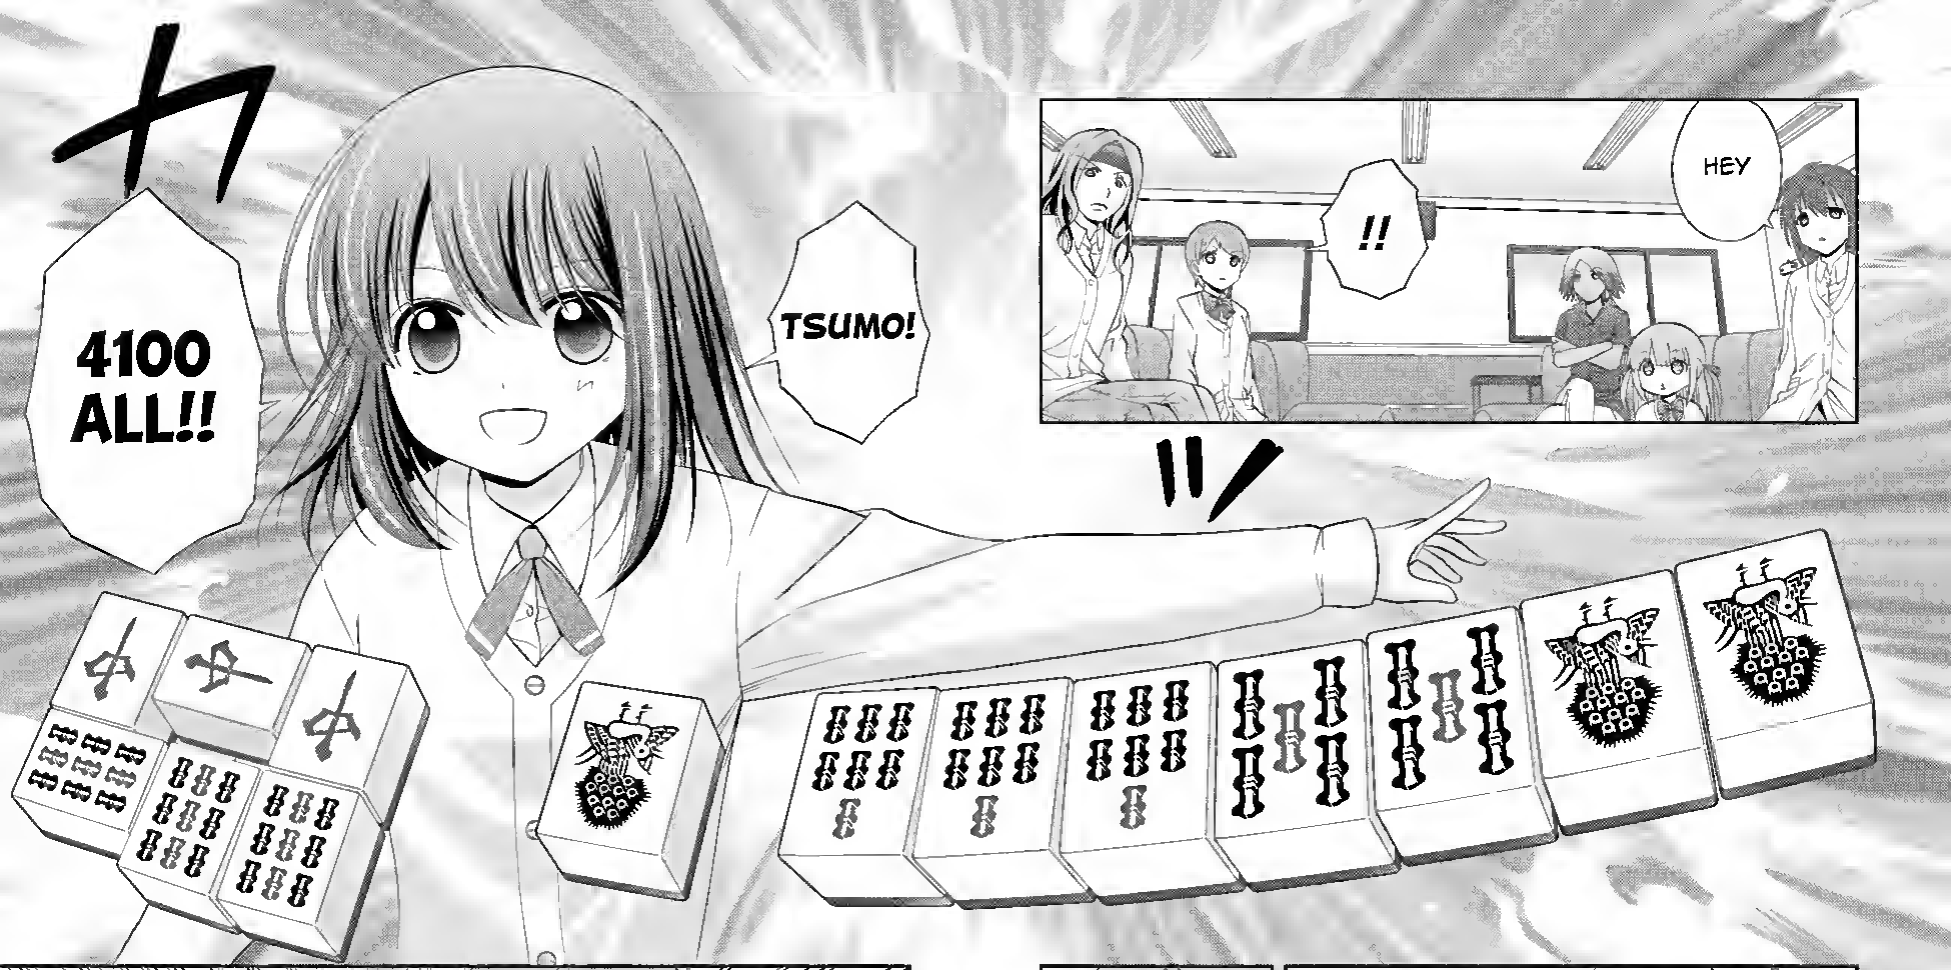


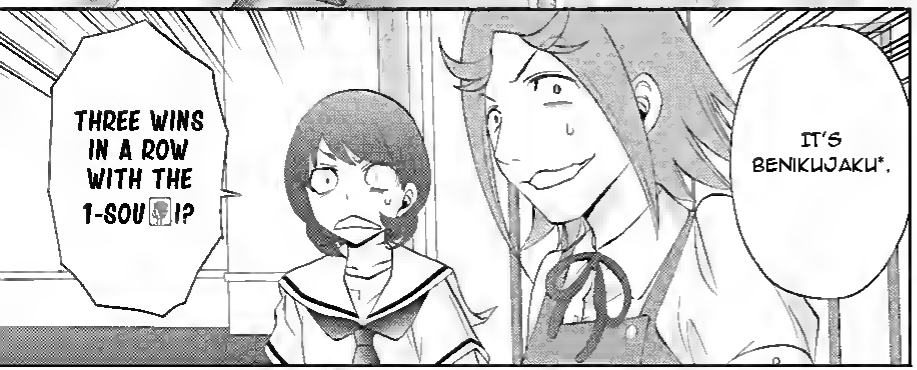


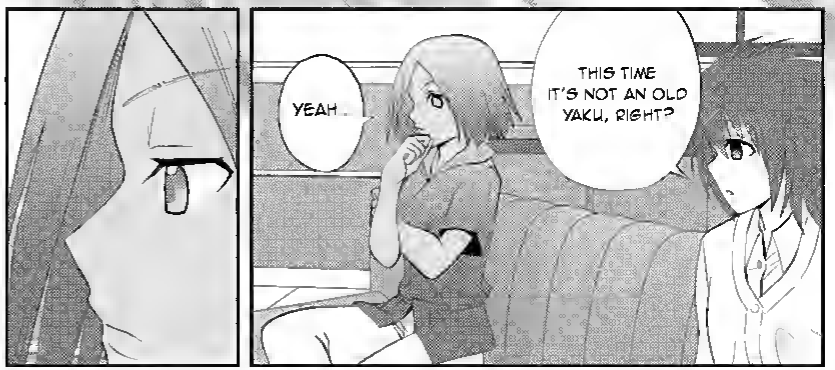




*TL note: *kachou fuugetsu* (literally means Flower Bird Wind Moon but generally translates as "the beauty of nature"). An old yaku where one must have 4 triplets as follows: 5 pin (flowers) 1 sou (birds) the round wind or the player's seat wind (wind) and 1 pin (moon). The pair can be anything. Worth a yakuman if counted (not the case here).







*TL note: *beni kujaku* (the crimson peacock). A local yaku where one must have triplets of 1, 5, 7 and 9 sou and chuu (red dragon). Logically, one of them will have to be a pair, it doesn't matter which one. All tiles contain red. In a way, it's the opposite of *ryuu iissou* (all greens). Worth a yakuman if counted (not the case here).
